Nightingale

User Handbook

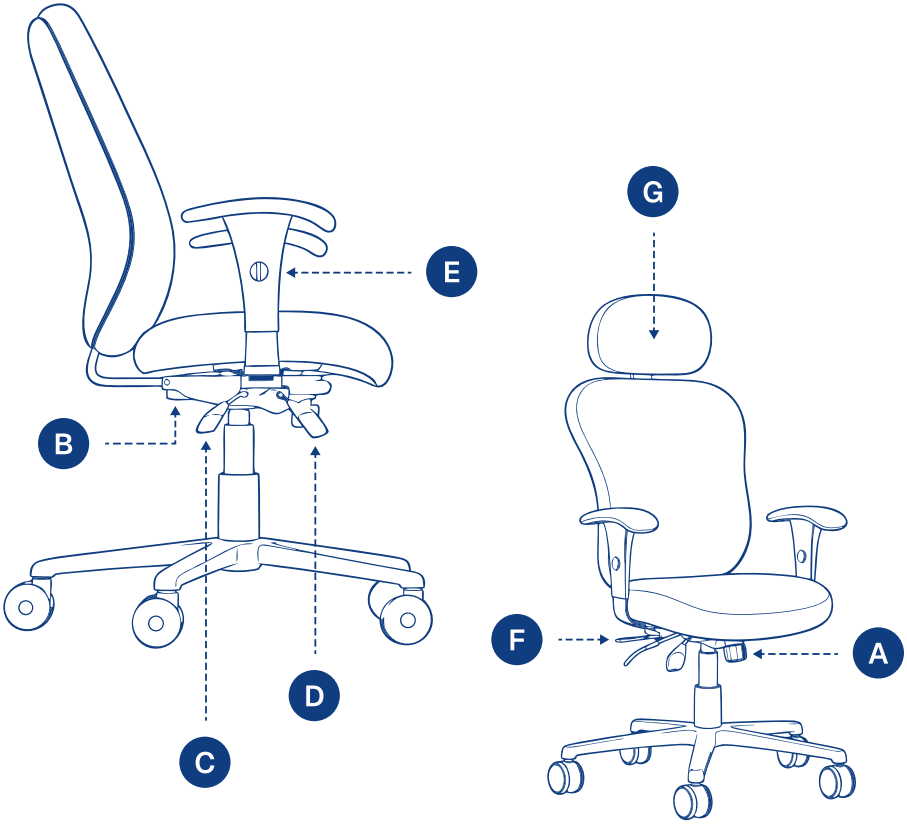

24/7HD

24/7 Series

Thank you for choosing Nightingale.

Proudly designed and manufactured in Canada since 1928, every Nightingale chair reflects nearly a century of craftsmanship, thoughtful innovation, and dependable performance. We hope it supports your work comfortably and reliably for years to come.

24/7hd

24/7hd-HR

A Tension Knob

Turn the knob clockwise to increase tilt tension or counterclockwise to decrease it.

B Seat Depth Adjustment

Loosen the handwheel without removing it. Slide the backrest to the desired position, then retighten the handwheel.

C Pneumatic Height Adjustment

To lower the seat, lift the paddle while seated. To raise the seat, lift the paddle with your weight off the seat.

D Infinite-Position Tilt Lock

Push the paddle down to lock the chair in position. Pull the paddle up to allow free movement.

E Arm Height Adjustment

Turn the knob clockwise to raise the arm or counterclockwise to lower it.

F Horizontal Arm Adjustment

Push the lever down to unlock the arm, move it to the desired width, then pull the lever up to lock it in position.

G Ratchet Height-Adjustable Headrest

Lift the headrest to the desired height; it will lock automatically. To lower it, lift it to the highest position to reset the mechanism, then lower it to the desired height.

Care Instructions

With regular care and maintenance, your chair will provide many years of superior performance and satisfaction. To maintain the quality of your Nightingale product, please follow the cleaning instructions outlined here.

Mechanism
Once a year, lubricate the mechanism using light sewing-machine oil or a similar product. Use the plastic straw attached to the sprayer. To prevent dripping and possible damage to surrounding surfaces, avoid over-lubrication.

Fabric
Clean with mild detergent and water applied with a clean damp cloth or sponge. Rinse with a damp (water) cloth and let dry. Never use hot water and avoid scrubbing. Use gentle movements.

Plastic Parts
To clean, spray with a mild detergent and wipe it clean with a cloth dampened with water. Do not use abrasives or excessive amounts of cleaner.

Frame
Powder-coated frames can be cleaned by wiping with a damp cloth and any mild detergent.
