Features

- The pivot-style headrest features ENERSORB™ foam, adjusts vertically, and pivots backward. An innovative coat hook is built into its design.
- The ABLEX™ patterned-weave mesh back provides generous lumbar support, allows dynamic movement, and promotes airflow for added comfort.
- The contoured thoracic/lumbar support pad with ENERSORB™ foam adjusts vertically and in depth for personalized support and comfort.
- Four-dimensional armrests are standard on models 6200 and 6200D. The pivoting arm pads provide a 30° range of motion inward and outward, plus height, width, and depth adjustment.
- Three-dimensional adjustable arms are standard on models 6200TI, 6200DTI, 6200HD, and 6200DHD.
- ENERSORB™ memory foam in the seat, lumbar support, and headrest disperses applied pressure evenly to reduce pressure points.
- The slow-release synchronous knee-tilt mechanism includes intuitive side-tension control, an infinite-position tilt lock, pneumatic height adjustment, and an integrated seat slider for depth adjustment.
- ANSI/BIFMA approved and TB117-2013 compliant.
