Key Features

1. Arms and back made with high-density and high-resiliency foam on plywood frame.
2. Seat made with high-density, high-resiliency foam over elastic webbing on plywood frame.
3. The steel base frame is finished with a high-impact epoxy powder coat, electrostatically applied for corrosion resistance.

   Environmental sustainability is key: the foam is CFC-free, and the steel frame is recyclable.

* ANSI/BIFMA approved and TB117-2013 compliant. Patented.
