Key Features

1. Perforated nylon back enhances airflow and helps keep the user cool and comfortable. Back can be nylon, mesh or upholstered.
2. A supportive dual hexagonal torsion bar system with preset tension allows for a reclining motion of the back, delivering exceptional support and comfort.
3. Energy-absorbing dual ENERSORB™ seat foam conforms to the body and disperses weight ergonomically to improve blood circulation and help relieve pressure points.
4. Standard in graphite with 2” carpet casters.

Stacking System
Chair can nest or stack three high.

* ANSI/BIFMA approved and TB117-2013 compliant. Patented.
