Key Features

1. Back and seat can be plastic shell or upholstered. Plastic models stack 45 high on a dolly. Upholstered models stack 18 high on a dolly and come complete with separators to prevent damage to fabric and foam.
2. Chrome-plated 7/16” solid bar frame for strength and durability. Frame cross bar set back to provide greater leg clearance. Standard frame notched to accept optional floor glides. Frame finish is duplex nickel chrome for appearance and durability.
3. Textured polypropylene seat and back shells contoured for ergonomic comfort.

* ANSI/BIFMA approved and TB117-2013 compliant. Patented.
