"What's New, What's Next - Future Forward" Announcement

New York Showroom

Nightingale is excited to announce its participation in this year's "What's New, What's Next – Future Forward" event at 200 Lex, New York Design Center.

This two-week event taking place from **September 20th – October 1st, 2021** is a virtual event that will honor the future of the design industry and mark the 95th anniversary of the New York Design Center.

Excitingly, this event will also include two in-person days on **September 29th & 30th** so visitors can experience

Nightingale's unique culture and high-quality seating products for themselves.

Mark your calendars and get ready to visit Nightingale's showroom **Suite #1114**, to see and sit in the best chairs New York City has to offer.

Celebrate National Family Fun Month

August is National Family Fun Month and this past year-and-a-half reminded us how important and valuable family time is. The dog days of summer are meant to be spent with family and friends indulging in exciting

adventures and simple moments. Use this month as an opportunity to participate in new and fun activities with your family. Here are some ideas for celebrating Family Fun this August.

Hike a Nature Trail

Visit a conservation park or walk a local trail. This activity is perfect for reconnecting with family while surrounding yourself with the benefits of nature. Stepping away from the busyness of life and enjoying the outdoors with your loved ones is a day well spent.

Family Game Night

A quiet night in can still be exciting. Dust off your favorite board game and play as individuals or in teams. Whichever you decide, taking the time to sit and even get a bit competitive with family is bound to be an entertaining evening.

Mini-Vacation

Since traveling is off the table for now, why not take a stay-cation and go camping or rent out a cottage in your local area. This slight change in scenery will bring a sense of joy and excitement to you and your family, even if its just for the weekend.

Indulge in Sweet Treats

Its not just for kids, ice cream on a hot summer day makes everyone happy. This sweet treat will bring a smile to all members of the family.

These are just some examples of the family fun that can be had during National Family Fun Month. Take advantage of the summer weather and spend some time being carefree with your loved ones this August.

Nightingale's Continued Environmental Commitment

Environmental responsibility is not only an important part of what we do at Nightingale, but a way of life. The company prides itself on setting industry standards for sustainability and is committed to maintaining environmentally friendly operations.

Nightingale has contributed to environmental well-being since the adoption of its green processes in 1990 and by upholding its award-winning environmental 'zero-waste' initiative. We have dedicated ourselves to being as carbon neutral as possible in our production processes. The cornerstone of our environmental commitment to zero waste is the 'land-fill sucks' policy.

This policy goes above and beyond to ensure that no waste ends up in landfills as a result of Nightingale's manufacturing

process. Excess or end-of-lifespan materials are either repurposed or reused. Through improved quality control of raw materials and enhanced efficiency in the molding process, our foam waste has been virtually eliminated. The metal components in our products are die-cast aluminum or steel, both of which are 100% recyclable; we also offer a variety of fabric lines with 100% recycled content (i.e. Beehave fabric from recycled pop bottles).

Nightingale has adopted sustainable packaging by only using recyclable packaging materials, such as corrugated boxes, cardboard fillers, and paper carton tape. We only purchase cardboard packaging that contains the highest possible post-consumer waste content (98% recycled paper content), making our packaging 100% recyclable.

Photograph of Nightingale Corp. entrance

Nightingale undertook a major environmental cleanup of our facility and land in 2019 and into 2020. We installed new energy efficient gas heaters as well as an energy efficient air conditioning system. The entire factory floor was refurbished to reduce dust build up, improving worker health and air-quality. An extensive renovation of our manufacturing facility reduced our energy consumption and improved health and safety within our building.

Since 2019, our new LED lighting system has reduced power consumption by 25% and the installation of air barriers has decreased natural gas consumption by 13%.

Nightingale's commitment to green initiatives goes beyond our own building and manufacturing and extends to those we partner with. Our wood suppliers in the US, Canada, and Europe are responsible partners who comply with guidelines from the Forest Stewardship Council and its European counterpart, the PEFC. We minimize waste generated during each step of the manufacturing process by adhering to our ISO 9001 Quality Management Procedures.

Nightingale is proud to continue operating in ways that benefit the planet and plans to build upon these efforts for years to come. Nightingale is committed to ensuring that the environment can be enjoyed by future generations.

Push the Limits with Nightingale's Overtime

OVERTIME 6800ti

The Overtime is a 24-hour ergonomic heavy-duty task chair that accommodates users up to 300 pounds (6800ti) and 350 pounds (6800Dti) for 3-shifts a day. Available in mid back or high back models, with or without arms, Overtime provides personalized comfort for most body types and sizes.

Overtime boasts a sleek swivel-tilt mechanism with infinite position swivel-tilt lock, free float or variable back angle adjustment, pneumatic seat and back height adjustment and tension control.

Its heavy-duty adjustable arms are attached directly to steel support under the seat for extra stability. The arms are also height and width adjustable for added comfort and durability.

OVERTIME 6800Dti

The heavy-duty back post and polypropylene outside back and seat shell provides protection while enhancing its robust design.

The mid back model 6800ti comfortably supports users up to 300 lbs. and the high-back model 6800Dti is built stronger with a larger seat to provide comfort to users up to 350 lbs. for 3-shifts a day.

It's sturdy 5-prong heavy-duty nylon base provides optimal mobility and strength to get you through the longest workdays.

Overtime fits any budget, works perfectly in any high-performance work environment, and looks good doing it.

ABOUT US

Founded in 1928, Nightingale is a contract seating manufacturer that puts purpose before profit. By collaborating with top designers, engineers and research teams, we create quality ergonomic products that are good for your body and the planet. Nightingale is one of the country's Greenest Employers and is committed to building products with minimal carbon footprints that are recyclable, sustainable and durable. All our products are made in our waste-free facility powered by clean energy. As one of the country's Best Managed companies, Nightingale's commitment to comfort, quality and innovation drives our vision to be a global industry leader.

We invite you to visit us at www.nightingalechairs.com to view all our quality seating options, obtain virtual literature, use the My Chair Maker app, learn more about our green initiatives and discover Nightingale's story.
