The TAV is estimated using the Ceiling Price as noted below X the quantity of units and adding a percentage of 4% for freight and 7% for installation to get a TAV. The percentage is used by the IU for estimating only unless a freight and installation amount is quoted by the Authorized Nightingale Dealer or Nightingale.
For Tier 2, the TAV is between \$25,000 and \$400,000 and the IU is encouraged to send a bid request to at least 2 conforming suppliers. The TAV is estimated using the Ceiling Price as noted below X the quantity of units and adding a percentage of 4% for freight and 7% for installation to get a TAV. The percentage is used by the IU for estimating only unless a freight and installation amount is quoted by the Authorized Nightingale Dealer or Nightingale.
For Tier 3, the TAV is over \$400,000. The IU will publish a request for bid on GETS regarding Notices of Planned Procurements and submit a bid accordingly.
7. Freight delivery charges are based on being prepaid and charge and are to be listed as a separate line item on the purchase order.
8. Installation charges are to be quoted on an order by order basis and listed as a separate line item on the purchase order.
